A minimum of 36 credits are required in your first teaching field. Depending on your teaching field, specific course requirements may be available from the College of Education Advising Center. If specific course requirements are not available for your teaching field, you must meet with the faculty coordinator of the program to determine whether you meet state endorsement requirements. Upon completion of such requirements, the faculty coordinator must submit, in writing, to the Advising Center, a letter that confirms that state endorsement requirements are met. The student is responsible for initiating this dialogue early in his/her program to ensure proper course planning.

A maximum of 30 credits in work experience may be applied toward this degree.
