Dr. Quinn was in attendance to revisit the proposal that had been tabled from the 11/9/11 curriculum meeting to offer EDEL 405 as an alternative option to EPY 451 for the Elementary Education program. Dr. Nussbaum was also in attendance to discuss his concerns regarding the lack of assessment focus in EDEL 405. A request from Nussbaum was made to not recommend approval of EDEL 405 at this time, but rather form a collaborative task-force. Due to the assessment items that were already built into the program within other courses, as well as licensure requirements being met by NDE, both Dr. Quinn and Dr. Boone felt that EDEL 405 was a sufficient option.
