Part B – Intended Transfer Credits

This portion of the Degree Plan Requirements Form is only required for students requesting inclusion of graduate credits transferred from a regionally accredited institution. This form is only valid if submitted with Part A.

TRANSFER CREDIT POLICIES

- Not more than one-third of a student’s degree program (not including the thesis, dissertation, or professional/scholarly paper) may be transferred from another university at the time admission is granted.
- Transfer credits are subject to departmental and Graduate College approval.
- Such work must be graduate level, graded (not pass fail or S/U), and must not be experimental or correspondence.
- Such work must have been taken at a regionally accredited institution
- Such work must have been completed with a grade of B or higher (B- is not acceptable).
- Sealed official transcripts covering the work must be sent directly from the issuing institution to the Graduate College; and the work must be posted to the student’s permanent academic record.
- Courses used to fulfill requirements for one degree may not be used to reduce credit hour requirements in another degree program. If course credits were used toward another degree, they may not be counted toward this degree.
- The age of the transfer work under consideration, or the year taken, may also be a factor. Course work completed more than six calendar years before the term in which all degree requirements are met may not be used in the degree program. For students beginning a doctoral degree program without a master’s degree must complete all requirements for the degree within eight years.

After admission, credits taken at another institution may be applied toward the degree if prior permission is obtained. For additional information, review the UNLV Graduate Catalog at: <http://catalog.unlv.edu> and see the Prior Approval of Transfer Credit form at: <http://graduatecollege.unlv.edu/forms>.
